## DIRECTORS' REVIEW TO THE SHAREHOLDERS

The Board of Directors of IGI Insurance Limited is pleased to present the un-audited condensed interim financial statements for half year ended 30 June 2011.

Despite tough market conditions, first half 2011 recorded a significant increase of 43% in Gross Written Premium over the same period, 2010 translating to 984 million (2010: 690 million). This is better than the growth envisaged in the strategic plan 2011-14 approved by the Board. The plan lays down strategy for growth and a roadmap of new business areas. The Company continued to grow in existing as well as new market segments and 31% of the total business came from new clients. Your Company also remained focus on exploring and capitalizing opportunities in the market. The six months' results are reflective of the efforts in this area.

The underwriting profit was only marginally higher by 7% owing to higher net claims which increased by 64% to Rs. 267 million. One of the main causes contributing to this increase is that the Company has initiated an extensive reconciliation exercise to clear long outstanding dues with other co-insurers. You will be glad to hear that the initiative has been a success, reflected by reduction in total receivables by over 50%. Another important step taken to strengthen the operations of the Company is acquisition of a new web-based insurance system.

Your Company posted Rs. 156 million investment income, mainly on account of dividend received from its associated companies. General and administrative expenses rose by 55%, inclusive of a donation to a premier educational institution. Excluding donation, the increase over last year is only 14%.

This year, the Company's financial results are adversely affected by share of loss of Rs. 132 million of the associated companies compared to a profit of Rs. 53 million last year. Due to unfavorable business environment for investment banking, IGI Investment Bank figures have negatively impacted our results. Similarly, due to energy situation, another group company numbers adversely affected our profitability. After accounting for the share of loss of associates, overall profitability before tax is Rs. 78 million. Consequently, earning per share for the half year ended 30 June 2011 is Rs. 0.54 against Rs. 2.10 for the corresponding period 2010.

We are confident that with the sustained efforts, the Company will be able to achieve higher goals.

We are grateful to our business partners and all stakeholders for their continued patronage and the Company employees for their dedicated efforts.
